

Income Taxation I
Prof. Jack Bogdanski
Fall 2015
Required Books

1. Bankman, Shaviro & Stark, *Federal Income Taxation* (**16th** ed. 2012). This casebook should be available used. A brief, free 2015 update is also required. I'll send around an email notice with a link when the casebook authors have the update ready. (Last year's update can be seen at <http://tinyurl.com/pycrqsq>).
2. Chirelstein & Zelenak, *Federal Income Taxation* (**13th** ed. 2015). Please get this new edition. It probably won't be updated again for several years, and so if you take care of it, you should be able to sell it (if you wish) when the course is over.
3. Lathrope (ed.), **2016** edition, *Selected Federal Taxation Statutes and Regulations*. Please get this new edition. Alas, this one changes every year and will probably be of little or no resale value.
4. Bogdanski, free online course supplement, currently "in production." I'll send around an email notice with a link when it's ready.

Do not attempt to use other editions of any of the books, as they are out-of-date and therefore potentially confusing!
