

Sustainability Council Meeting Notes March 14th 2013 12:00 – 1:00 pm

Environmental Implementation Committee:

- Opportunities for collaboration with CAS and LAW Masters program
- Curriculum with undergrads enrolling in grad classes
- Possible survey class on American legal system
- Discussed the possibility of a 4 plus 1 undergrad/masters program with law school

Sustainability course inventory

- What courses fit within the definition of “sustainability”
- Collaborate between the schools with classes centered on sustainability
- Put list of these sustainable classes on website for marketing and PR

Bottled Water Policy

- The Bon is ready to stop ordering bottled water
- Six new bottle fillers in the budget
- It will be hard to get athletics to stop selling at concessions stand
 - Bottled water is the most served item but they are not making any money from the stand
- Why not just start giving water away in cups?

A look at the Language

- Council decides to take out all of the “whereas” and just leave the endorsement
- Maybe incorporate many of these ideas following the endorsement
- Council approves bottled water policy

Committee reports:

Education committee:

The mixer was a good turnout, speeches were great, good interest in salmon safe, mostly people from the sciences were there

Operations committee:

Three preconditions to salmon safe almost complete

5 year plan for salmon safe

Certification celebration event will happen in April for salmon safe

Goal to be pesticide free on campus by 2014

BINGA games is up and running

Homes and Hartsfield move out:

- We will set up tents outside and get volunteers from the outdoors floor
- We will set up recycling a week before finals end
- NEED A NAME! –Photography, music and food at the event

Livewhale set up will be changing soon so look out for that

Last meeting of the year will be April 8th

Think about plans for next year and bring to the meeting
