<b>Invention Information</b>
<b>Title:</b>
<b>Summary of Invention: Please provide brief description of invention; novel features and benefits are important to highlight.</b>
<b>Timeline: Please describe the data and circumstance of first conception of invention. For example, by whom was the first drawing made or description written or verbally disclosed?</b>
<b>Invention keywords</b>
<b>Please attach a detailed description of your invention</b> Description must address Utility; Novelty; Method of Synthesis, Assembly or Process; and Limitations. For example, is your invention a new process, composition of matter, a device, or one or more products? A new use for, or an improvement to, an existing product or process? Include invention's purpose and possible uses. What was the motivation for the invention (what benefit does it provide, what problem does it solve)? What are the advantages/disadvantages compared to current and potential alternatives? Include drawings, schematics as appropriate and references to relevant publications and patents.

**3**

<b>Funding Information: Was any of the work that led to the invention externally funded?    Yes    No (If yes, complete below.)</b>			
*The <a href="#">Bayh-Dole Act</a> applies to any intellectual property that was developed with federal funds.			
<b>Funding Source/Sponsor name (1)</b>		<b>PI First Last Name</b>	
<b>Is the sponsor federal?</b> Yes    No	<b>Award Number</b>	<b>Start Date</b>	<b>End Date</b>
<b>Funding Source/Sponsor name (2)</b>		<b>PI First Last Name</b>	
<b>Is the sponsor federal?</b> Yes    No	<b>Award Number</b>	<b>Start Date</b>	<b>End Date</b>
<b>Are there more than two external sponsors? (If yes, please attach additional pages as necessary)</b> Yes    No			

4

Questions (If the answer to any of the following questions is yes, please provide additional information)	YES	NO
1. Have you described the invention in a publication, presentation, poster session, on a website, or to a member of the press? If yes, what was the date? Was it described specifically or generally? Attach copies of abstracts or publications		
2. Have you tested the invention experimentally?		
3. Have you constructed a prototype, model, or test samples that are available for examination?		
4. Are you aware of any inventions, publications, or patent applications by others that are related to this invention? This includes prior art that you may have improved upon and/or that may be displaced by this invention.		
5. Is this invention related to an earlier invention disclosure here or at another institution?		
6. Did the research that led to this invention use any third party or confidential resources, including but not limited to materials obtained through a Material Transfer Agreement (MTA), proprietary database, assay, other?		
7. Has a product embodying this invention or made by the invention been sold or offered for sale?		
8. Do you have any specific plans to sell or offer this product or process for sale?		
9. Have you described this invention or discussed it with any industry representatives?		
10. Are there possible commercial applications (product or process for producing a product) of your invention?		

5

Please add any additional relevant information below; attach additional pages as necessary.

I certify that the information contained in this Invention Disclosure Form is true, accurate, and complete. I have read and understand Lewis & Clark College's [Intellectual Property Policy](#). I understand that Lewis & Clark is required to notify the government of inventions made under federally supported research.
