- **Coinsurance** is *your* share of the costs of a covered service, calculated as a percent of the **allowed amount** for the service. For example, if the plan's **allowed amount** for a crown is \$500, your **coinsurance** payment of 50% would be \$250. This may change if you haven't met your **deductible**.
- The amount the plan pays for covered services is based on the **allowed amount**. The plan does not reimburse dentists for charges above the **allowed amount**. If a **provider** charges more than the **allowed amount**, you may have to pay the difference. For example, if a dentist charges \$200 for an examination and the **allowed amount** is \$150, you may have to pay the \$50 difference. (This is called **balance billing**.)
