

Health Information Portal

Welcome to Wellness Service's secure online patient portal!

We advise using Google Chrome or Internet Explorer 8.0 or higher when you login to our portal, as using other browsers may result in a loss of information.

To register for the Health Information Portal please follow the steps below:

1. Set up your **Lewis and Clark email account** first if you haven't already done so.
2. Go to the patient portal: <https://lclark.medicatconnect.com>
3. Click on **Register**. This is on the upper right corner of the page.
4. Choose your username. This could be the first letter of your first name and your full last name i.e. jdoe (Jane Doe).
5. Put in your 7 digit student ID number in the Lewis and Clark ID box. (Do not put an "LC" or "0" in front of your ID number.)
6. Fill in your name. This **must be the name you provided to Admissions**. No middle initial.
7. Click **SUBMIT** at the bottom of the page. A box will pop up confirming an email was sent to your LC email address.
8. Open the email and click on the link to set up your password and enter the Health Information portal.
Tip: password must be at least 6 characters and contain a mix of letters and numbers.
9. Using your new username and password you should now be able to login to the Health Information portal.

Please Note – *Each form will time out after 20 minutes of inactivity. The Medical and Mental Health History forms can only be filled out once, so you will need to enter this information in one session. However, the immunization form will continually allow you to update it but you must submit after each session.*

Forgot your password/username or got locked out? Follow these instructions:

1. Go to the patient portal: <https://lclark.medicatconnect.com>
2. Click on the "forgot password" box.
3. Enter your LC email address in pop up box.
4. Click **SUBMIT**.
5. An email will be sent to create a new password. This email will also include your username.

From your secure Health Information Portal you can:

1. Complete Health forms including health, mental health, SAPES and immunizations forms
2. Obtain immunization records
3. Obtain receipts/walkout statements.
4. View your upcoming appointment date and time
5. View and print your immunizations
6. Receive health information related to your health care visit.
