

Science at Lewis & Clark: Measuring Success

Distinction must be earned. At Lewis & Clark, the accolades we're earning from prestigious institutions affirm the distinctive teaching and research of our faculty, the inspiring energy and achievements of our students, and the many ways our alumni advance knowledge. The numbers tell the story: Our success is verifiable.

3 latest hires in the department of chemistry have received funding from the CAMILLE AND HENRY DREYFUS FOUNDATION during the first year of faculty appointment.

20 FULBRIGHT SCHOLARSHIPS
 14 Goldwater scholarships
 7 Udall scholarships
 5 Truman scholarships
 4 National Science Foundation Graduate Research Fellowships
 1 Fannie and John Hertz Foundation Fellowship
 1 National Defense Science and Engineering Graduate Fellowship
 1 Howard Hughes Medical Institute Predoctoral Fellowship in Biomedical Sciences
 1 SHEAR/Mellon Fellowship
 1 Congressional Hispanic Caucus Institute Summer Internship
awarded since 2001

7 of our last 11 NATIONAL SCIENCE FOUNDATION grant proposals have been funded, and all 4 National Institutes of Health proposals submitted in the last 3 years have been funded. Both NSF and NIH fund on average fewer than 20 percent of proposals.

514 PERCENT INCREASE in grant dollars awarded to faculty in mathematics and natural sciences over the last 7 years.

\$8+ MILLION in 64... grants have been awarded to science faculty members since 2001.
 Current funding sources include
 National Institutes of Health
 National Science Foundation
 National Fish and Wildlife Foundation
 Research Corporation
 Howard Hughes Medical Institute
 Defense Advanced Research Projects Agency
 American Chemical Society
 M.J. Murdock Charitable Trust
 Arnold and Mabel Beckman Foundation
 Camille and Henry Dreyfus Foundation
 The Geological Society of America
 Merck Institute for Science Education
 The Mathematical Association of America
 NSF CAREER award to Greta Binford

80 UNDERGRADUATES have published jointly with faculty in national and international science, math, and engineering journals since 2000.

40 PERCENT of recent graduates in biochemistry/molecular biology, biology, and chemistry are enrolled in graduate or M.D. programs.

Facts and figures are accurate as of July 1, 2008.
